

# Colorful Tropical Fish

**Applicable Age Group** 4-5 year-old toddlers

- Activity Objectives**
- ☑ Explore color combinations and changes.
  - ☑ Understand the characteristics and living habits of fish.

**Activity Description** Learn about colorful underwater tropical fish with children. These vibrant little fish swim in groups in the sea, each with a unique shape, creating a visual feast. Through hands-on operation, children will explore color combinations and changes to build colorful fish of the seabed. They will also learn that fish breathe through gills and feed on microorganisms or small fish in the sea.

## STEAM Competence Development Indicators

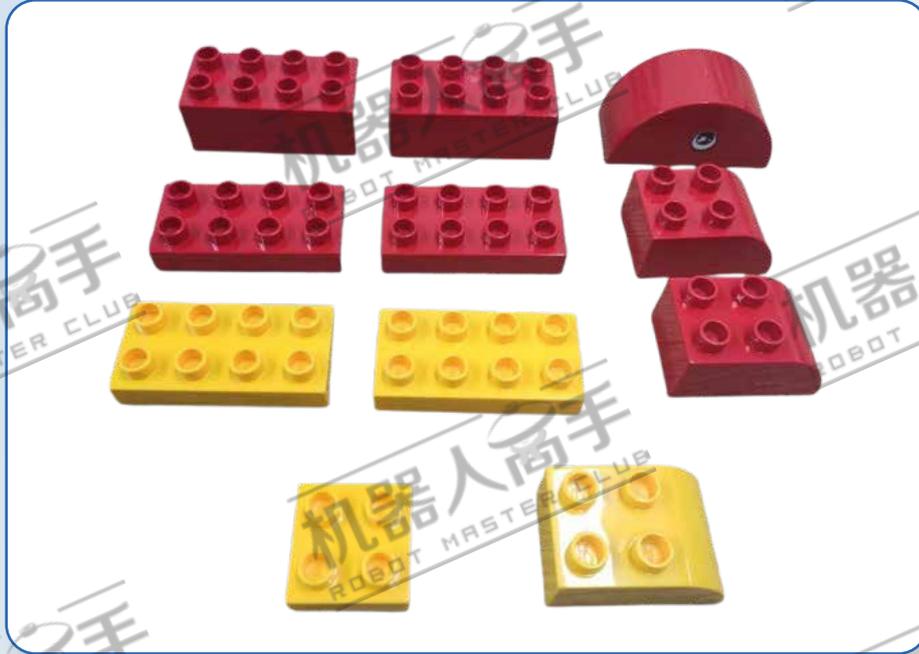

Method Indicator	Situation-based introduction: Understand fish and their body structures	Combine colors to build a tropical fish	Test the integrity of the fish's structure	Recreate scenarios to understand fish's living habits
Curiosity and Imagination				
Flexibility and Adaptability		●		
Verbal and Written Communication Skills				
Cross-boundary Cooperation and Exemplary Leadership				
Critical Thinking and Problem-solving Skills			●	
Proactive and Pioneering Spirit				●
Ability to Evaluate and Analyze Information	●			

### Interactive Tips

- Color matching can be in stripes or spots. Children can either imitate the matching in pictures or create free combinations.
- During building, remind children of the different parts of a fish's body to ensure the integrity of the body structure.
