

Elephant Slide

Applicable Age Group 4-5 year-old toddlers

- Activity Objectives**
- ☑ Learn about the basic physical characteristics and living habits of elephants through observation and building.
 - ☑ Use imagination and creativity to explore new functions of an elephant's trunk.

Activity Description By sharing experiences of visiting elephants in the zoo, learn about the physical characteristics and living habits of elephants. Design and build an elephant by hand, explore the role and functions of an elephant's trunk, and use imagination to demonstrate new functions of the trunk.

STEAM Competence Development Indicators

Method Indicator	Situation-based introduction: Understand the appearance characteristics of elephants	Design and build an elephant	Understand the function of an elephant's trunk	Use imagination to explore new functions of an elephant's trunk
Curiosity and Imagination	●			●
Flexibility and Adaptability		●		
Verbal and Written Communication Skills				
Cross-boundary Cooperation and Exemplary Leadership				
Critical Thinking and Problem-solving Skills				
Proactive and Pioneering Spirit				
Ability to Evaluate and Analyze Information			●	

Interactive Tips

- Elephants are animals familiar to children. When talking about elephants, focus on the basic body components of elephants and their most obvious physical characteristics.
- Elephants have distinct features; for the prominent ones, emphasize the shape and size during building.
- There are many types of building blocks available for making elephant ears and long trunks—just select a few favorite ones.

 Find These Building Blocks
